

Rubens Setiawan

Team: Indonesia

Participating Year(s): 2021

Current position/affiliation: Meteorology Student of Bandung Institute of Technology/Assistant on Tim Olimpiade Geografi Indonesia.

The Meaning of Geography to Me

For me personally, geography is the first step of my life to step in to deeper study of earth science that I loved, especially in meteorology. Geography taught me on how the Earth influenced human and vice versa.

Impact of iGeo Preparation on my Life

The preparation and participation of iGeo has taught me significantly on how to be a discipline person in academic terms.
