The Meaning of Geography to Me

Geography is a way of life. Being intellectually sound in geography opens doors for you to become inquisitive about knowledge which makes you a better version of yourself.

Geography makes you look intelligent and knowledgeable about all parts of the world.

Impact of iGeo Preparation on my Life

It made me pursue my career of becoming a pilot.

Suggestions for the iGeo

This Olympiad is an excellent innovation, it makes students aspire to become valuable geographers. Long live iGeo!
